The Bridgewater hall

Berliner Philharmonie

KKL Music Hall

Concertgebouw

Alfredo Kraus Auditorium

BeoLab 5 can take you to the world's best place for music - your living room.

At the press of a button, our BeoLab 5 speaker takes a minute to get an acoustic image of the room it is in. The bass is adjusted to the volume of the room, and to how the walls and furniture are reflecting and absorbing sound. The acoustic lenses then spread the mid- and hightones in perfect horizontal bands of true sound that reach your ears without bouncing off the floor or ceiling first. You'll be feeling you're in your very own symphony hall.

Experience the true sound of BeoLab 5
