Automatic update

☒ Enabled (Recommended)☐ Disabled

☒ By accepting this (Enable and Save), you consent to allowing your system to automatically check and install new software updates. Bang & Olufsen a/s (B&O) will provide your equipment with new software when deemed reasonable by B&O.

The software updates provided by B&O are all provided with the purpose of improving your equipment, including to provide you with new and additional functionality, and/or to correct malfunctions. You may be informed about changes in the individual updates, the first time you switch on your products after a successful software update.

Disable and press Save if you no longer wish to consent to the above. Please note that rejecting to the above-mentioned, may limit your ability to use certain functions.

Usage patterns

Allow Bang & Olufsen to collect usage statistics

☐ Enabled☒ Disabled

☐ Help make Bang & Olufsen products better by automatically sending usage statistics and error reports to Bang & Olufsen a/s (B&O).

By accepting this (Enable and Save), you consent to allowing your product to send usage statistics and error reports to Bang & Olufsen a/s. The information sent to B&O will be used by B&O for various purposes all with the aim of improving B&O's products. In particular the information will be used by B&O to correct and/or prevent errors in your equipment, just as the information will be used by B&O to generate usage patterns, enabling Bang & Olufsen to improve the general performance of products in connection with future development and updates.

Disable and press Save if you no longer wish to consent to the above
